

Visit to Sentosa with Autism Association

As part of our Bull Charge 2014 beneficiary outreach, we organized an excursion to Sentosa, Port of the Lost Wonder on 23 May 2014 for the children from the Autism Association. For many of us, it was our first time to the Port of Lost Wonder!

There were many exciting attractions at the Port of Lost Wonder, where the children were thrilled to get wet and visit them all. Some of the highlights they enjoyed were the bubble play station and water slides.

Bubble Play

One of the three slides in the attraction

We too tried to score a marksman with the water cannons! Many of us were overpowered by the fervent kids and parents. For once, we were thrown back in time, feeling like kids again.

The water activities ended with a delicious spread to reward our tummies. It was heartening to see the jovial kids tucking into their favorite nuggets, fries and corn.

Once again, we would want to take this chance to thank the Autism Association and the children for a fantastic time (and workout) at Sentosa! We had a lot of fun, and it was great way to end the week!
