

## Cleaning & Painting for AWWA Transitional Shelters

19 July 2019

Our Marketing & Communications Unit volunteered to clean and paint two AWWA transitional shelters in July. These units were used as temporary accommodations for displaced families.

They did their best in cleaning up the houses and putting on a fresh coat of paint, with hopes to help the families live in a comfortable environment during their transitional period.

It was a challenging task for the team to transform the transitional shelters within a day and every one was pleased with the outcome of the final product.

Special thanks to the volunteers for their initiative in making a difference for the people in need!
